

## How to read your RX Quote on MedicareEdge

Under 'Pick a Plan' on the main screen; **click on 'Plan Details'**

You will see three different tabs-

### **Plan Details**

This section provides you with a summary of your *plan's information* including:

- **Monthly premium**
- **Deductible**
- **Estimated Total Annual Costs (Premium + Drug Costs)** based on your specific prescriptions entered.
- **Summary of Copays by Tier** at preferred, standard and mail order pharmacies
- Required plan documents such as **Summary of Benefits, Formulary List** and **Star Ratings**

### **Prescriptions**

This section provides you with the **overview pricing details of each of your specific medications.**

- Showing the cost of each of your prescriptions during each of the various prescription drug phases.
- Indicates if any of your medications have restrictions like Prior Authorization or Quantity Limits.

### **Total Estimated Costs**

This section provides you with the **month by month cost breakdown of your specific prescriptions** at your indicated preferred pharmacy

- Shows which months you will be in which 'phase' of coverage
  - Ex- When you will meet your deductible and/or enter your coverage gap if applicable
- Click on each month to see how your prescription costs may change throughout the year

### **Additional information**

- **ALL** Medicare Prescription Drug Plans have 4 [Stages/phases of Coverage](#).
- **Please notice the quantities of medications that are listed on the report and if they are listed as a 30 day or a 90 day supply.**
  - All drug costs quoted are for the quantity/frequency listed on the report.
- Under your plan you are eligible to fill a 30 day or 90 day supply at your retail pharmacy or the carrier's preferred mail order pharmacy.
